

## FCT Sample Cutter

### Model

YT-PY65

### Application Function

FCT sample cutter is a special sampling device necessary for corrugated board flat pressing strength test (FCT). It can quickly and accurately cut the sample of the specified area. It is an ideal auxiliary device for corrugated board and carton manufacturing enterprises, scientific research and quality supervision and inspection departments.

### Key Technical Parameters

|                        |                                   |
|------------------------|-----------------------------------|
| ✧ Sample Size          | 64.5cm <sup>2</sup> (φ90.6±0.5)mm |
| ✧ Sample Max Thickness | 15 mm                             |
| ✧ Dimension            | 150(L)×150(W)×170(H) mm           |
| ✧ Net Weight           | ≤3kg                              |
